

DATE	October 2022	CODE	EMAX-I-3	B
------	--------------	------	----------	---

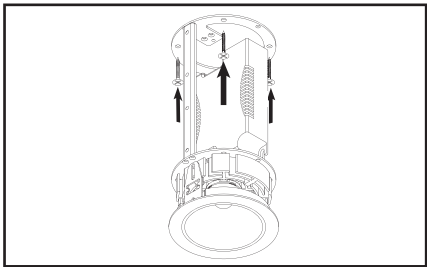

SUPPLIED PARTS

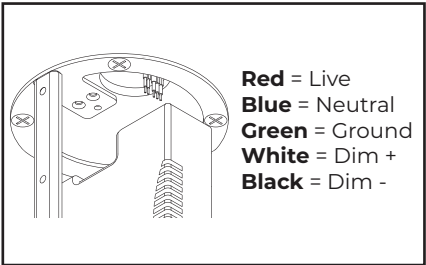

REQUIRED FOR INSTALLATION

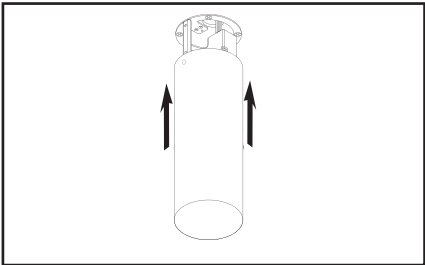

1. Unscrew the two Countersunk Screws at the top of the Light Fixture. Slide Housing carefully off the Internal Assembly.

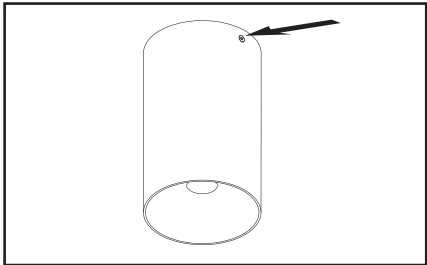

2. Fasten the Internal Assembly to the ceiling using appropriate fixings.

3. Draw the wires through the ceiling and connect to the Terminal Block.

4. Slide the Housing up, aligning the screw holes.

5. Replace Countersunk screws. Make sure there is no movement within the fixture after tightening.

Your EMAX Ceiling Mount light is now installed.
