Cut Out Length Calculations

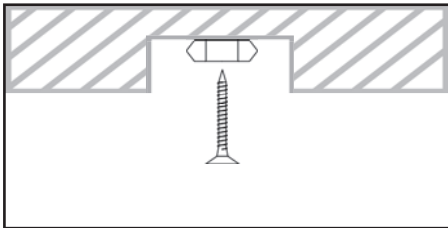

Critical Profile Dimensions:

Dimensions in mm.
Dimensions are the same with or without the mounting clip, as the mounting clip is hidden.

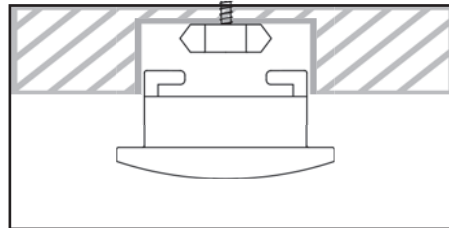

1. For fully recessed mounting, create cutout 9mm deep and 19mm wide. See below for cutout length calculation.

2. Mark and pre-drill screw holes prior to inserting Mounting Screws through Mounting Clips.

- Mounting Clip suggestions**
 0-1000mm = 2 Mounting Clips
 1050- 1550mm = 3 Mounting Clips
 1550- 2050mm = 4 Mounting Clips
 2050- 2550mm = 5 Mounting Clips

NOTE:
Screw Heads must be flush with the face of the Mounting Clip.

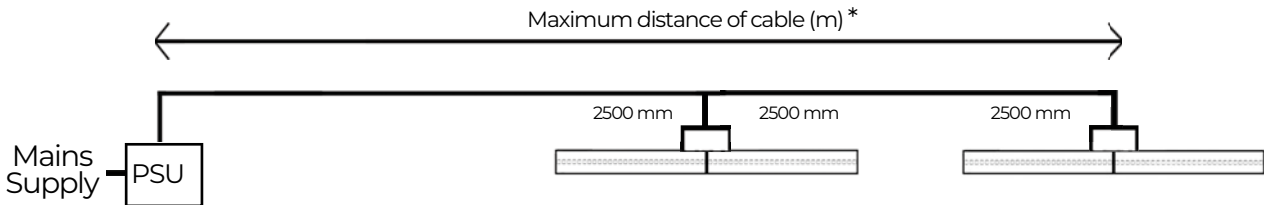

3. Press the Light Fixture down into the pocket until you hear a 'Click'.

The Installation is now complete.

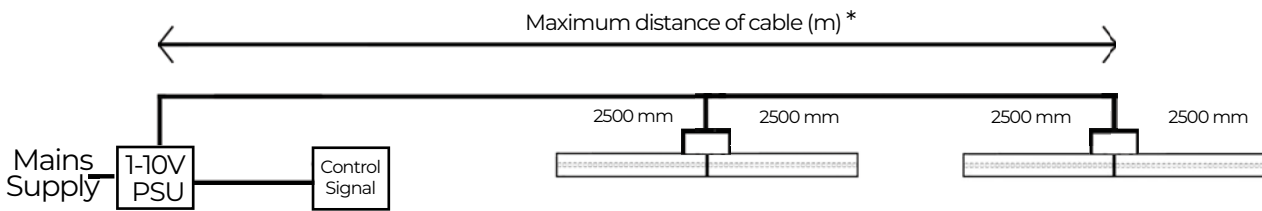

For continuous runs when assembly is required use a low odour + Low Bloom instant such as '**LOCTITE 460 INSTANT ADHESIVE**' or a similar adhesive for attaching endcaps to the end of the profile.
