## Versatile T5

Meccano of the lighting Industry

Introducing the new adaptable, flexible, Versatile T5 from Intralux. Combining stylish, minimalist design with incredible flexibility. This luminaire can be transformed with ease to accommodate undershelf, suspended, wall, ceiling and floor mounting decorative lighting applications.

## T5 lamps Economical

Versatile T5 utilises highly efficient T5 fluorescent lamp technology, available in a range of wattages from 14 to 35W. The T5 lamp offers amazing colour rendering properties in excess of 85 CRI\*, lamp efficacy of up to 104 lm/w\* and life of 20000 hours+.\*

Utilising lightweight, high strength extruded anodized aluminium, Versatile T5 is manufactured in a range of different lengths from 590mm for intimate highlights, through to 1490mm for high power displays. Modules utilising our LYNX connection system ensure rapid installation for runs of high performance illumination up to 20 metres from one connection.

Hard wired or LYNX connected

# Benefits

## transforms

A unique design feature enables Versatile T5 to transform from a basic module through to a suspended or wall mounted version in a few easy steps. The easy addition of a wall washing beam controller or high performance reflector to either fixed or suspended versions transform Versatile T5 into an exciting luminaire system offering huge potential application opportunities.

The easy clip on beam controller creates stunning wall washing displays. Perfect for retail situations and galleries. This customised controller ensures a high light output onto the wall. Install either suspended from the ceiling or fixed into place on the floor or ceiling.

## High performance reflector

Versatile T5 can also be optioned with the specialised linear reflector and decorative clip system. This linear reflector provides exceptional control, putting the light on the surface where it is intended. The contemporary look of this product allows it to form a feature in an installation while still offering the ultimate in functionality and performance. Use in runs for continuous light or as pendants for individual features.

## switch

An attractive optional rocker switch allows modules to be controlled independently, perfect for undershelf and workstation applications.

## rapid installation

Intralux's advanced production processes enable the rapid manufacture and global distribution of our product range. Stringent quality control and advanced product testing procedures coupled with our 24 month warranty program, guarantee your future product reliability.

# Applications

- Under Cabinet
- Suspended Task Lighting
- Workstations
- Wall Washing
- Wall Mounting
- Diffused
- Decorative
- Retail / Commercial
- Residential
- Libraries
- Hospitality
- Galleries
- Exhibitions

**Adaptable, flexible, versatile**

## The many components of Versatile

Versatile T5 has been designed to be wall, ceiling or floor mounted. With Versatile there are so many options:

1. The uniquely designed suspension system ensures the luminaire is in perfect balance when suspended.
2. Optional lens simply clicks into place. Offering diffusion of light and protection for vulnerable locations.
3. Beam Controller options that simply clicks into location on either side of the luminaire. Specifically designed reflector offering superior distribution for exceptional wall washing applications.
4. These decorative clips secure the linear reflector in position.
5. The special linear reflector that has unrivalled reflectivity, controlling the light from the high efficiency T5 lamps resulting in a high performance solution.
6. Versatile T5 luminaire is the base unit, utilizing high efficiency T5 lamp technology and electronic control gear, is a high performance, cost effective solution.
7. Cable for hardwiring. For continuous applications, simply hardwire one starter unit then connect all other luminaires using the LYNX system.
8. Versatile T5 luminaire is optioned with lens and showing the surface mounting brackets. Mount this luminaire on the ceiling, wall or floor.
9. The snap-on end cap provides a neat finish to every installation.
10. Versatile T5 luminaire optioned with a lens. This configuration utilising LYNX system provides continuous illumination from one connection and enabling individual luminaire switching via local optional switches.
11. Flex and Plugs available for simple, quick installation. Optional flex and plugs available from a number of country configurations.
