SUPPLIED PARTS

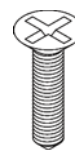

Mounting Template

REQUIRED FOR INSTALLATION

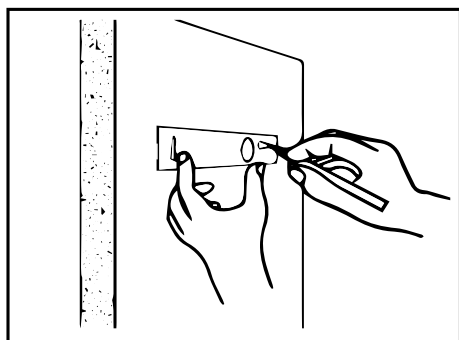

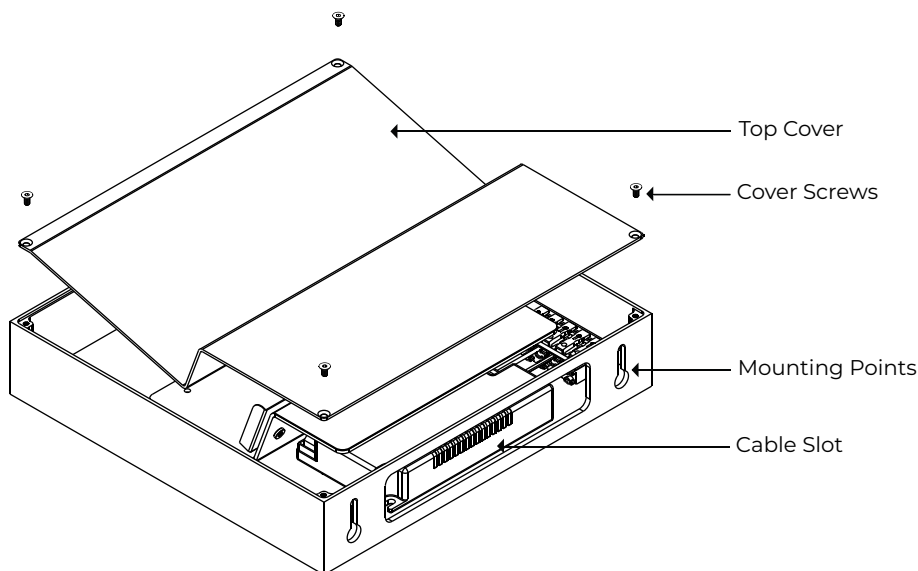

Wall Anchor

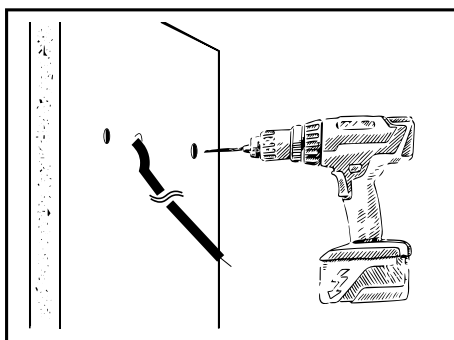

Mounting Screws

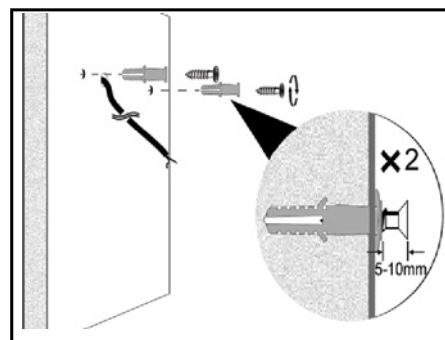

Hex Head Screwdriver

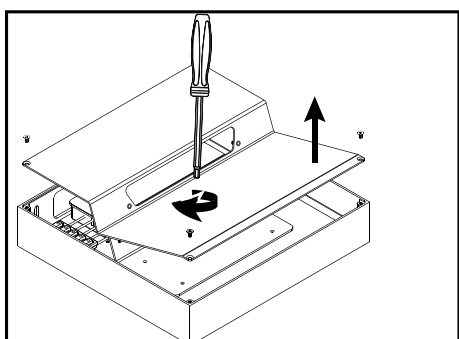

1. Using the mounting template provided, mark out the holes required.

2. Drill the mounting holes.

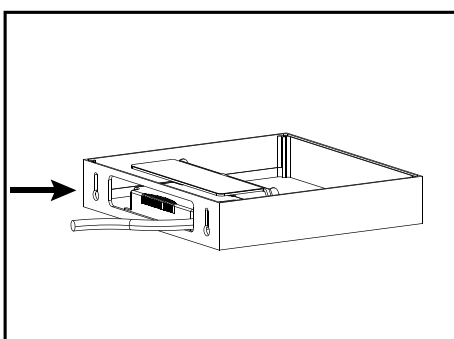

3. Insert appropriate wall anchors and attach screws most of the way in.

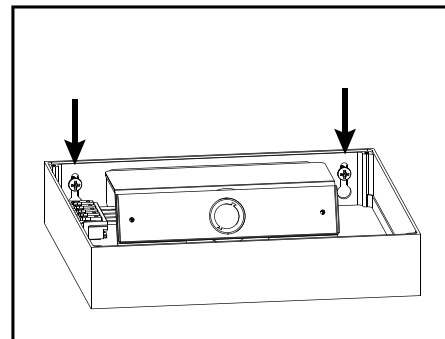

4. Using a Hex Head Screwdriver, undo the 4 top cover screws.

Remove the cover and put aside.

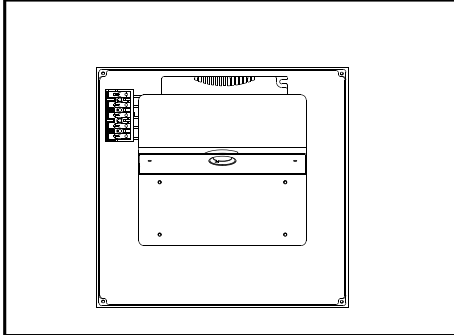

5. Insert mains power supply through cable slot.

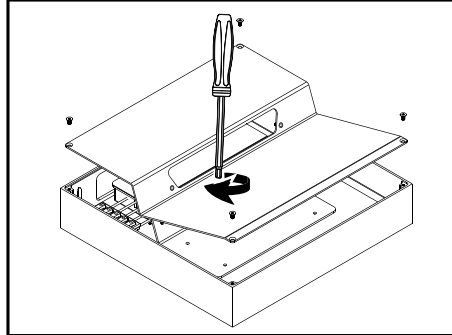

6. Hang the fitting on the two mounting screws. Tighten the screws once the fitting is in the correct, level position.
